

# How to Count Pages and Sheets

Knowing the difference between sheets and pages can simplify setting up your file and ordering your online printing project.

A page is one side or face of a piece of paper. Since one piece of paper has two sides, you would have two pages. A sheet is two pages. So that one piece of paper is actually a sheet.

## *For Stapled Flipbooks & Workbooks*

**3" x 5"**  
**Stitched Flip Books**  
30 sheets (60 pages)

**5" x 7 & 8.5" x 11"**  
**Stapled Workbooks**  
30 sheets (60 pages)
